Bryce on his way to college

Bryce realizing there are no parking spots available

Bryce panicking thinking he will not make it to class on time

Bryce pulls out his phone looking for other parking spots, but then realizes something

He downloaded an app to find parking easier

Now, Bryce can always be on time for class since he can find parking easier.

Portwood and His Parking Problem

Portwood, a professor at UofSC, commutes to work everyday.

But Portwood cannot function without his morning coffee.So everyday he goes to pick up his coffee.

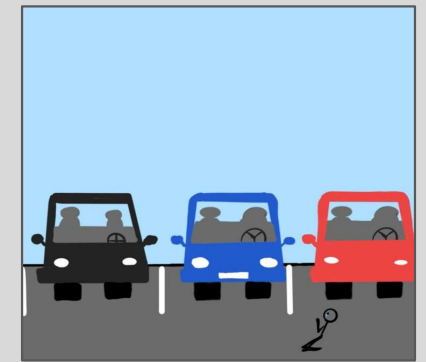

Because he gets his coffee, Portwood is never early enough to find parking.

But yesterday someone told him about the new UofSC parking app.

Today, the app told him where to find an open parking spot.

He is eternally grateful for those who designed this app and save him so much time every morning.

A MOST TIMELY SOLUTION

Because of this great app, David is able to get find good parking spots and get to class on time.

Because Shane is a bad driver he is late for class

But he cant find a parking space

Every parking space seems full

But then he remembers about the Uofsc parking app

Using the app he finds an empty spot

Even though he is late, he now has a parking spot
